The Illinois Institute for Addiction Recovery

A Roadmap for Sustainable Sobriety: Guiding Principles for Lifelong Rewarding Recovery

Mr. Prin will examine relevant research data and demonstrate effective ways to use these custom-designed worksheets, questionnaires, charts, and mini-lectures. One such exercise focuses on clients' secrets and how these individuals can disclose sensitive information in a constructive manner. Integrated into this seminar are research and insights from the work of Cardwell Nuckols, Harry Tiebout, William White, Earnie Larsen, and Bill Wilson. Attend this training and learn the ways clients can take self-responsibility for their recovery attitudes and behavior, and how they can boost their resistance to relapse while reaping the rewards of healthy recovery.
